

Our Joxilox Big5 Safari Group Tour – January 2025

By Domien and Heleen

We booked a trip with various safaris in South Africa via Internatuur. Internatuur called upon the tour operator Joxilox consisting of Amanda and Lofty. Internatuur arranged the flight and Amanda and Lofty took care of the accommodation at the naturist resort Sun Eden, the safaris and the transport from the airport to Sun Eden and afterwards back to the airport in Johannesburg for the return trip. Since we had not rented a car, Amanda took us to a few supermarkets in Pretoria every Friday to do our shopping for a week.

Joxilox passed on their costs to Internatuur, so that we received one invoice from Internatuur with the total costs of our flight, the accommodation at Sun Eden and the safaris.

Amanda and Lofty are seasoned tour operators and professionals par excellence. With a lot of passion, humor, sense of responsibility and above all customer friendliness, they elevated our stay in South Africa to a stay in paradise. They maintain a high standard of comfort and luxury. Everything had to be perfect: the food, the accommodation, the safaris and all agreements were met punctually and accurately. No African stretched time.

The accommodation during the safaris to the Kruger Park and Pilanesberg were fortunately all naturist and of a high level of comfort and luxury. The rooms were very spacious, with large and good beds and with a separate toilet, shower and bath.

We did not spend the night in the Kruger Park or Pilanesberg, but in a village nearby. That village is very large and provided

with good restaurants where we had lunch and dinner when we were at the park. In Pilanesberg Lofty was only satisfied with the third villa offered. He had to insist a lot at the reception to get the villa that met their standard of luxury and comfort.

Very good of him!
The villas had a garden with a lot of privacy and with a small splashpool in which you could not swim but where you could cool off wonderfully. In the villa near the Kruger Park there was even a basin with water for the animals that walked around there: warthogs, kudus, bushbucks, small monkeys (bush babies), impalas and so on. Amanda had brought food for the animals and birds and from the terrace or relaxing in the pool we had a wonderful view

of all those animals that came to eat. Beautiful and very nice to see them so close.

When we did not eat in the restaurant during the safaris, Amanda took care of breakfast, lunch or dinner. They were abundant and delicious meals

with lots of fresh fruit and vegetables. We did not want for anything and we left the dining table feeling full every time. How temptingly delicious that was every time!

Amanda and Lofty put a lot of energy not only in finding the

best accommodations, but also in hiring the best guides in the game parks. Guides who took the time and gave us the opportunity to observe and photograph the animals well.

They provided us with useful and interesting information during the drive in the game parks. And who, despite driving on the difficult roads in the game parks, saw animals and birds with their

sharp eyes that we initially did not see, because they were so hidden or far away. These guides provided the great experience in the game parks, because without them we would have

missed many animals and would have been deprived of a lot of useful information. Very good of Amanda and Lofty that they took so much care to find the best guides.

It should be clear: we had the time of our lives in South Africa thanks to the wonderfully good guidance of Amanda and Lofty. We were so spoiled by them through their personal and pleasant approach and the activities that were taken care of down to the last detail and comfortable and luxurious naturist accommodations, that on our next trip, wherever that may be, we will not settle for less. But I fear that no one can equal this high level of a well-cared for trip, let alone improve it.

We very much enjoyed the warmth, friendliness, service orientation and humor of Amanda and Lofty. Good memories that we will always cherish. We therefore recommend Joxilox (via Internatuur) with full conviction and great enthusiasm to our Dutch compatriots and to anyone who wants to combine naturism and safaris in South Africa.
